## **MESSAGE FROM FEDERAL MINISTER FOR IPC**

Pakistan is a flourishing democratic Federation that enjoys active participation of its federating units. Under the Islamic Republic of Pakistan, 1973, each Province participates in nation building without fear of domination/exploitation by any other Province. The federating units contribute towards formulation of national policies and resolution of issues confronted in the social, political, economic, and administrative fields. An Inter-governmental forum called “Council of Common Interests” serves the purpose of creating effective provincial harmony and unity between the Federation and the Provinces with a view:

- To act as a useful confidence building Forum between the Provinces and the Federation, and amongst the Provinces.
- To provide a mechanism for dialogue and debate so as to facilitate and resolve policy issues in all fields of common national concern.
- To strive to meet the grievances of the people of smaller Provinces and to assure them that regardless of their small or big population, their rights are not appropriated by any larger Province or the Federal Government.

2. I am proud to state that despite financial constraints and other hurdles, the Ministry of IPC has maintained its focus on implementation of policies connected with social, political, economic and administrative fields between the Federation and the Provinces.

3. The Ministry has in its ambit provision of sports and also deals with specific functions related to education etc as entrusted under the Rules of Business. Being the Minister In-charge of the Division, I feel that the Ministry is engaged in playing its role for strengthening of Federation in the country, and provision of sports and education. I also appreciate the hard work and dedication of the officers and staff of the Ministry for accomplishment of sensitive constitutional and other assignments.

4. I hope that this publication will serve as an important reference book for the scholars, researchers and general public as well.

## **FOREWORD**

This Year Book has been prepared in pursuance of Rule 25 of the Rules of Business, 1973, relate to the Ministry of Inter Provincial Coordination activities, targets and achievements, during the year. The Year Book is prepared for information of the Cabinet, Government functionaries, researchers as well as the general public.

2. The Inter Provincial Coordination Division, initially came into existence on 24.12.1971. In compliance with the above statutory instructions, this Division prepared its first Year Book for 2007-08. This Year Book covers the financial year 2016-17. The objective of this Book is to keep the public informed about the important activities undertaken by this Division during the year.

3. It is hoped that this publication will serve as an important reference book for its audience.

4. I acknowledge and appreciate the efforts of the concerned officers of this Ministry in compiling this year book.

**(Amjad Ali Khan)**  
SECRETARY

## **1. INTRODUCTION**

Ministry of Inter Provincial Coordination was created initially on 24-12-1971, when it was headed by the Prime Minister himself. With intermittent interruptions, the Prime Minister of Pakistan approved the creation of a full Inter Provincial Coordination Division in the Cabinet Secretariat w.e.f. 19<sup>th</sup> March, 2007. The IPC related functions of the Cabinet Division were transferred to the Inter Provincial Coordination Division at the time of its creation. Subsequently, it was made a full fledged Ministry w.e.f. 3rd November, 2008. Due to 18<sup>th</sup> Amendment, the responsibilities of the Ministry of IPC have been increased. Necessary amendments have been made in the Rules of Business, 1973.

### **1.1 VISION**

Pakistan, being a democratic Federation, enjoys full confidence of its Federating units. In line with the Constitution of the Islamic Republic of Pakistan, 1973, each Province should play its role in nation building without fear of domination/exploitation by the larger Provinces. All Federating units contribute towards formulation of national policies and resolution of issues being confronted in the social, political, economic and administrative fields. Inter governmental fora through their deliberations serve the purpose of creating effective provincial harmony as well as unity between the federation & the Provinces, promoting and developing uniform standards of sports competitions in Pakistan comparable to the standards prevailing internationally and regulating/controlling through Pakistan Sports Board; and arranging bilateral cultural exchange scholarship programmes for Pakistani students in other countries.

### **1.2 MISSION**

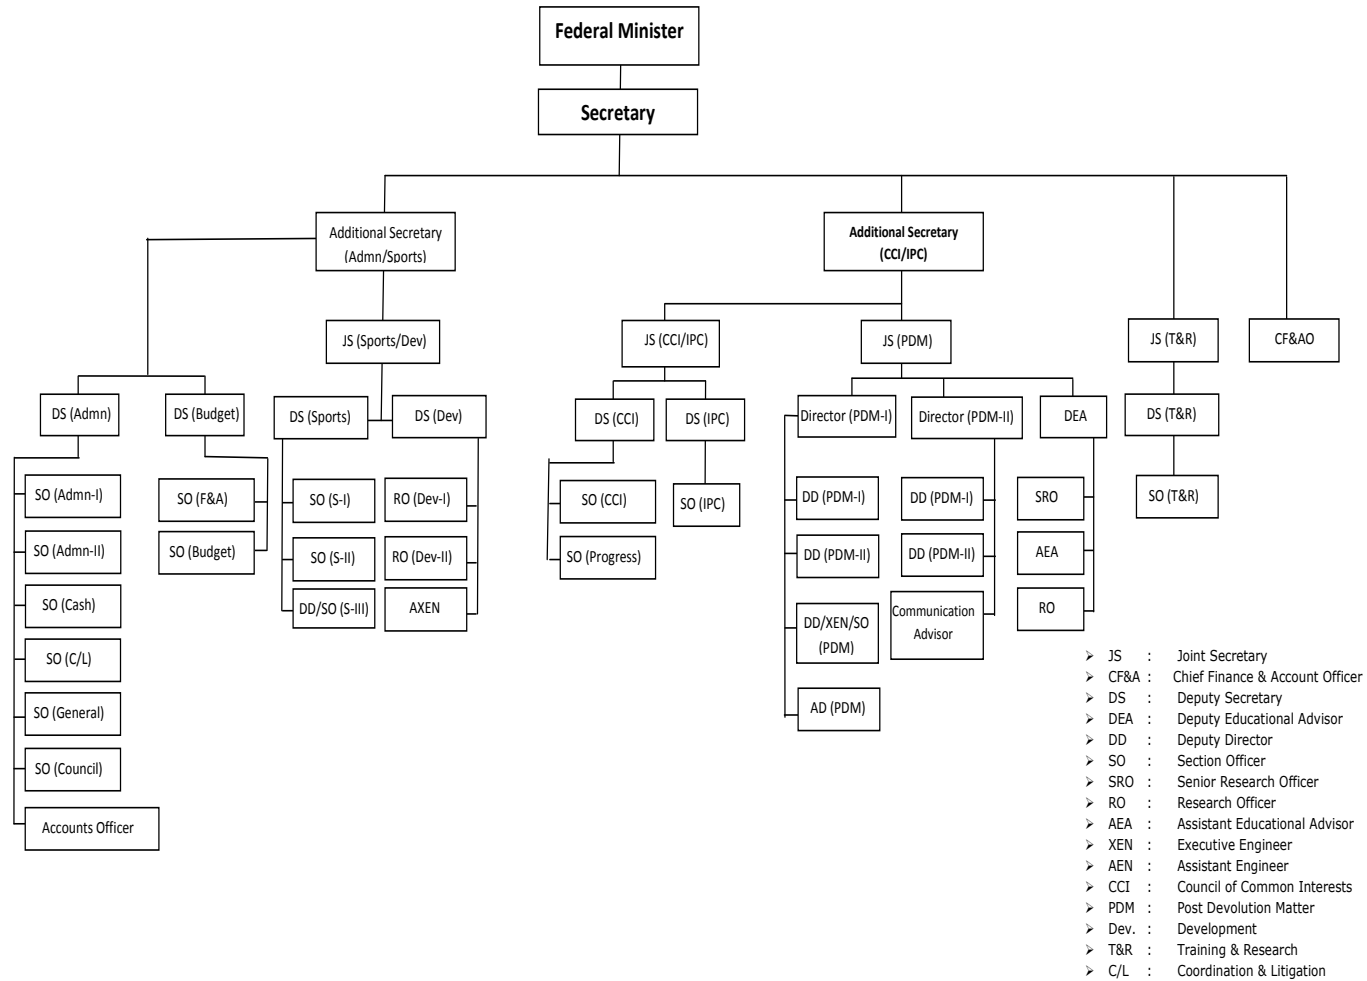

- To act as a useful confidence building Forum between the Provinces and the Federation and amongst the Provinces.
- To provide a mechanism for dialogue and debate so as to facilitate and resolve the policy issues in all fields of common national interest.
- To strive to meet the grievances of the Provinces and to assure them that they will be treated equally.
- To achieve the purpose of coordination and harmony between the Federation and federating units for resolution of continuous issues.
- To control and promote sports in the country and also to execute and implement the government policies.
- To offer scholarships for Pakistani students studying abroad and foreign students studying in Pakistani institutions.

## **PART-III**

**COUNCIL OF COMMON INTERESTS  
(CCI)**

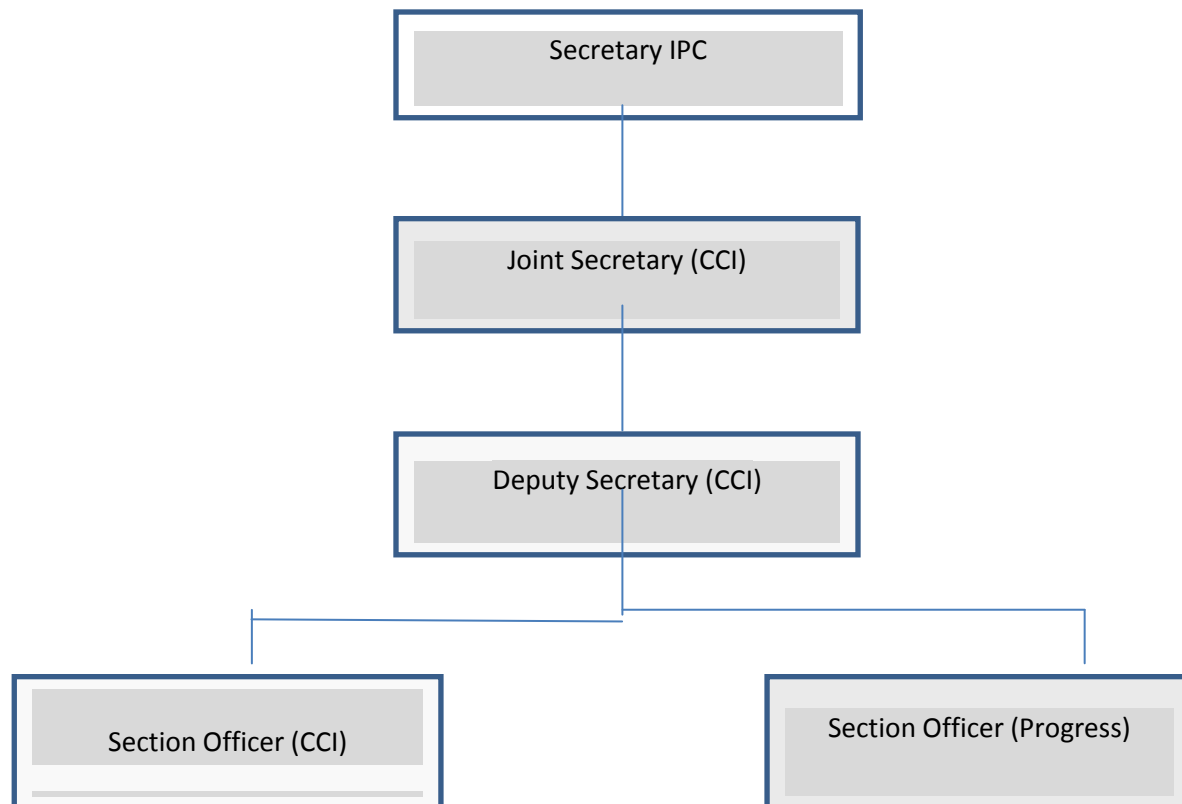

**&**

**INTER PROVINCIAL COORDINATION  
(IPC) WING**

### 3.1 COUNCIL OF COMMON INTERESTS (A WING OF IPC DIVISION)

The CCI Wing of IPC Division acts as a Secretariat of the Council of Common Interest. It was established in March, 2010 in the IPC Division when the Prime Minister of Pakistan approved the transfer of all Secretarial work of the Council of Common Interest from Cabinet Division to IPC Division. This Wing is headed by the Joint Secretary and is assisted by a, Deputy Secretary and two Section Officers.

#### Concept of the Council of Common Interests

2. The Council of Common Interests (CCI) was created under the provisions of the Constitution of Islamic republic of Pakistan 1973. The passage of 18<sup>th</sup> Constitutional Amendment has strengthened the purview and expanded the role of CCI. The forum is headed by Prime Minister of Islamic Republic of Pakistan. It is an icon of federalism in the country and provides the federating units (Provinces) an equal opportunity in the affairs of the federation.

3. In terms of Article 153(1) read with Article 154(2) the President of Islamic Republic of Pakistan appoints Council on the advice of the Prime Minister of Pakistan within 30 days of taking the oath of Prime Minister. The Council of Common Interests

(CCI) is responsible to both the houses of Parliament i.e. Senate and National Assembly. Its report is annually laid before these houses under Article 153(4).

### **Composition of CCI**

4. The Council of Common Interests (CCI) was last reconstituted on June 25, 2013 as under:-

1.	The Prime Minister	Chairman
2.	The Chief Minister, Balochistan	Member
3.	The Chief Minister, Khyber Pakhtunkhwa	Member
4.	The Chief Minister, Punjab	Member
5.	The Chief Minister, Sindh	Member
6.	Pir Syed Sadaruddin Shah Rashidi, Federal Minister	Member
7.	Lt. General (Retd.) Abdul Qadir Baluch, Federal Minister	Member
8.	Sardar Muhammad Yousaf, Federal Minister	Member

The Secretary IPC Division is the Secretary of the CCI.

### **Functions of the Council of Common Interests**

5. In accordance with Article 154, the Council is responsible to formulate and regulate policies in relation to the matters enumerated in Part II of the Federal Legislative List (FLL) and exercise supervision and control over related institutions. The decisions of CCI are appealable in the joint session of the Parliament.

6. Article 155 of the Constitution extends the purview of CCI on resolution of a dispute among the federation and the federating units or among provincial government regarding their rights on water from any natural source and authorizes the federal or the provincial government concerned to make the complaint to CCI. The CCI can either decide or recommend the President to set up a commission consisting of a person having knowledge and experience in irrigation, engineering, administration, finance and law under Pakistan Commission of Inquiry Act, 1956.

7. As regards "Electricity", Article 157 while authorizing federal government to construct hydro-electric or thermal power installations in any province in consultation with that province also authorizes the provincial government to draw bulk supply from national grid for transmission and distribution within province, levy tax on consumption, construct power houses and grid stations and lay transmission lines and also to

determine the electricity tariff within the province. In case of any dispute between the federal government and a provincial government in respect of any matter under this Article, any of the said governments may approach the Council of Common Interests for resolution of the dispute.

8. Consequent upon the passage of 18<sup>th</sup> Constitutional Amendment in April 2010, important subjects relating to Federation have been added in the Federal Legislative List, Part-II, for consideration of the CCI. This has not only expanded the purview of CCI but also strengthened its role through introduction of the concept of participatory management, both by Federation and Federating Units. The CCI, therefore, considers all the issues and events related to the subjects enlisted in the Federal Legislative List (Part-II) whereas the subject enlisted in Federal Legislative List (Part-I) are directly dealt by the concerned federal Ministries/ Divisions and decided by the Federal Cabinet. The subjects of Federal Legislative List (Part-II) are at Annex-I.

### **MEETING OF THE Council of Common Interests**

9. In accordance with Article 153(4) of the Constitution, it is mandatory for the Council to meet at least once in ninety days. During the financial year 2016-17, the Council convened two meeting i.e. on December 16, 2016 and May 2, 2017 and deliberated upon vital issues and took decisions in matters relating to the federation, with full participation of the provinces. The detail of agenda items considered by the CCI during the year is as under:-

**Game Development Activities**  
**July 2016 - June 2017**  
**NATIONAL CLUB CHAMPIONSHIP**

PCB administers its cricketing activities through the regions. PCB has over 3000 registered clubs, these clubs are administered by 97 districts and these districts are administered by 16 regions. The initiation of this national event stems from our programming and management capability to generate an ESSENTIAL cricketing activity for approximately 60,000 club cricket players across the country.

It is for this reason that we keep investing in existing players without tapping into the enormous resources that are available on tap. Club cricket is the backbone of all cricket activities in Pakistan. Due to lack of organized cricket in clubs, selection in inter-district tournaments and other tournaments become an exercise that is NOT performance based since no performance data is available for these new players. Furthermore, unlike other boards, PCB also does not have any data on these players. In most instances, existing players keep getting selected, and the system suffers from stagnation.

**Program Overview:**

2849 Club teams participated in 97 districts across Pakistan. Hence, there are 97 district champions and thus 16 regional champions. 2 pools comprising of 8 teams each will be formed and a national champion will be emerged after the final which will be televised live on TV.

**Expected Results:**

- Most importantly, the top performers in this tournament will be dovetailed into our existing inter-district (currently the only feedstock system).
- Immediate transparency in selection.
- Rapid, statistically verifiable results (in less than 6 months).
- Emerging cricketers will be motivated to improve their skills and fitness standards.
- Raw talent from far flung areas will also be unearthed within six months.
- This tournament will lead to far better and more transparent district selection.
- Enhancing the pool of players for the selection of teams at the regional level.
- Direct access to the pool of 60,000 cricketers registered in Clubs across Pakistan. At present, we have approximately 3500 players on top nationally. This figure shall rise by over 700 percent in a matter of months at a cost of only a fraction of what we currently spend on district and domestic tournaments.
- A complete and comprehensive database of ALL players will be available on website.
- This tournament will, in essence, create a paradigm shift in how PCB conducts all its domestic cricket activities.

## PROGRAM PYRAMID

Total number of Matches 5126

Number of players 60,000 approximately

Total budget allocated for this program is approximately PKR 69 million

## **ICC ACCREDITATION VISIT OF PCB-LUMS BIOMECHANICS LAB REPRESENTATIVES IN PRETORIA**

This was a game-changing visit. The ICC led workshop at High Performance Center (HPC) of University of Pretoria was aimed primarily at introducing the ICC protocol regarding bowling assessment. The participants present during this two day workshop were:

- Mr. Ben Leaver, ICC
- Dr. Helen Bayne, University of Pretoria
- Prof. Mian M Awais, LUMS
- Mr. Hissan ur Rehman, PCB

On the first day of the workshop four technical sessions were conducted. These included introduction to:

1. Lab marker clusters and their placements, quality check trials, calibration trials, and bowling assessment.
2. Data processing using Nexus tool.
3. ICC protocol and report generation.
4. Management structure and relationship between the board and the lab.

On the second day of the workshop, three technical sessions were conducted. These included conducting a semi supervised lab test by Prof. Awais from LUMS. A detailed plan for the next 8 weeks was chalked out. A second interactive session on management structure and relationship between the board and the lab was also conducted comprising of the following:

- a) Reporting mechanism
- b) ICC reporting templates
- c) Financial arrangements regarding a test
- d) Presence of independent cricket experts during tests
- e) Video recordings and their importance in testing
- f) Level at which application of suspect bowling protocol be done (domestic, club, etc.)

At the end of the workshop ICC handed over all the technical documentation including the software and hardware to PCB-LUMS lab. Now, Professor Awais has all the tools to generate a report similar to that of any accredited lab, however, ICC has requested him to only experiment and preferably not conduct any further official tests for PCB until the final accreditation assessment expected in August 2017.

ICC was appreciative of PCB's representative presence as it emphasized that both PCB and LUMS are on the same page regarding the accreditation process. ICC representative (Ben Leaver) and the lead biomechanist in Pretoria (Helen Bayne) were very cooperative to share further insights during the informal discussions.

Besides, we also discussed management structures to be adopted after accreditation and innovative ideas related to biomechanics. One of their purposes of meeting the PCB

representative and the expert from LUMS was also to develop a working relationship of trust. Ben from ICC emphasized several times that key to operationalizing and accrediting the lab is finding the right expert.

Now it's just a matter of when. Their team (comprising of biomechanists from Italy and South Africa including the ICC rep) will do the final evaluation as the last step.

### **NATIONAL SCHOOLS CHAMPIONSHIP**

From this year onwards PCB has started making an effort to revive cricket in schools, for the purpose a "National U-16 schools cricket tournament" (A.H KARDAR CUP) was played all across Pakistan. The tournament was played in 23 major cities across Pakistan; we were successful in involving some 850 schools and nearly 10,500 players (schools from both public and private sector) in the tournament.

This tournament is being played in three stages, at the moment stage one of the championship has been completed across Pakistan; stage 2 and 3 will be played in by end of July 2017. We have seen some exceptional talent featuring in the tournament, these players have been introduced to competitive cricket for the first time, and at the moment we are contemplating as to how to dovetail these talented youngsters in our current cricketing structure.

Nearly all the players involved have an educated background and we foresee at least a few of these youngsters making to the national team and many representing their regions, in a few years' time. If we could sustain this program for a period of five years then we envisage a new blood line of national heroes who can act as a real ambassador of Pakistan. Program itself has its own hurdles, which are mostly financial but PCB endeavors to keep the program running and expanding it in other cities, in the coming years.

### **Program Overview**

- a) Around 15-20 schools per region/city (private and government) participated across Pakistan:
  - Teams were made from merging 2-5 other branches/schools so that schools could build a better team, while serving the purpose to involve educated cricketers and also encouraging intra school competition, which the schools organized amongst themselves.
  - On average, 10 private schools and 10 government schools participated in each planned city (almost equal participation).
- b) The championship will be played in three stages (starting from 5th April 2017):
  - Regional/City U-16 Schools cricket championship (5th April-15th May)
  - Pool matches (August 2017)
  - Semifinals and final (September 2017)

- c) Schools were responsible for making their own teams.
- d) Cut off age limit was January 2001 (participants will be around 16 yrs of age). Doctors were appointed in each city/region to monitor the age.
- e) Teachers were appointed to verify that the players are genuine from the schools.
- f) Approximately 8000-10000 players and 750-850 matches are expected to be played in this tournament. It will be the largest school tournament ever organized in Pakistan.
- g) Biometrically verified cards were given to the participants after scrutiny. These cards will act as their identification to play the matches of this tournament and also for their future enrollment in U-19 and other teams.
- h) The tournament took place in all the main cities of PCB registered regions across Pakistan.

### **Expected Results**

PCB expects the following results from the program within a period of five years:

- Educated players will be encouraged to come forward.
- Young players will be encouraged to get basic education.
- Young players will have a choice later on in life, whether to pursue professional sports or education.
- A better system to select Pakistan U-16.
- This will help cricket to regain its past glory.
- Larger viewership for our international and domestic cricket, which will help in getting better sponsors.
- This will prevent cricket from having the same fate as that of hockey.
- Schools will make an effort to build a better team.
- Interest of parents, teachers and students will be ignited.
- Future stars will be educated enough to act as real ambassadors of Pakistan.
- All round year activity will be generated at U-16 level.
- Job opportunities for first class and international players.
- Job opportunities for PCB certified coaches.
- More people will be interested to play cricket.
- Schools will start investing in cricket.
- Cricket activity amongst the schools will be generated.
- Finance for the clubs, districts and regions.
- This will give a massive boost to our cricketing structure, if after every two years we are able to convert as low as 1% of these schools cricketers into our regional U-19 and first-class setup.

Budget allocated for this program is PKR 58.7 million.
