MESSAGE FROM FEDERAL MINISTER FOR IPC

Pakistan is a flourishing democratic Federation that enjoys active participation of its federating units. Under the Islamic Republic of Pakistan, 1973, each Province participates in nation building without fear of domination/exploitation by any other Province. The federating units contribute towards formulation of national policies and resolution of issues confronted in the social, political, economic, and administrative fields. An Inter-governmental forum called “Council of Common Interests” serves the purpose of creating effective provincial harmony and unity between the Federation and the Provinces with a view:

- To act as a useful confidence building Forum between the Provinces and the Federation, and amongst the Provinces.
- To provide a mechanism for dialogue and debate so as to facilitate and resolve policy issues in all fields of common national concern.
- To strive to meet the grievances of the people of smaller Provinces and to assure them that regardless of their small or big population, their rights are not appropriated by any larger Province or the Federal Government.

2. I am proud to state that despite financial constraints and other hurdles, the Ministry of IPC has maintained its focus on implementation of policies connected with social, political, economic and administrative fields between the Federation and the Provinces.

3. The Ministry has in its ambit promotion of sports and also deals with specific functions related to education etc as entrusted under the Rules of Business. 9: NATIONAL INTERNSHIP PROGRAM (NIP)

No government in the world can ensure 100% employment but can provide enabling environment where the youth can develop themselves to create positive economic activity. Keeping in view the varied outcomes of work-based learning, such experiential learning opportunities for young graduates, is currently one of the most influential ideas in public higher education and workforce development policy across the world.

University education is at the top of education pyramid and graduates so qualifying need to be employed in a productive manner. Fresh graduates have knowledge of only an academic nature and lack the experience organizations need for intake. This mismatch leaves a large pool of unemployed but highly educated youth, resulting in a dangerous youth bulge. Internships bridge this important gap by not only providing the needed skills and practical training to the youth who can be gainfully employed, but also provides them income until they find a regular job. An internship is a part-time job for specific period, paid modestly, in which the interns gain knowledge while contributing to the organization in a win-win situation with ultimate benefit to the economy.

For students, an internship provides an understanding of a real work/business situation. It consists of an exchange of services for experience between the intern and the organization. From the organization's perspective, internships are used to determine if the intern has an interest and ability in that field after the real-life experience. An internship can also help an intern to create a professional network that can assist with letters of recommendation leading to future employment opportunities.

Internship programs are popular worldwide and countries have continuous internship programs, due to the following benefits:-

- Practical, hands-on experience for the graduates
- Enhanced resume or CV to enhance prospects of future employability
- Networking opportunities for the interns to seek job
- Internships are highly likely to lead to employment opportunities in the respective organizations where they undergo internship
- The benefit of bringing an intern into full-time employment is that he is already familiar with the organization, its position, and as intern usually needs little to no training.
- Internship provides a college graduate ability to participate in a field of his/her choice to receive hands-on learning about a particular future career, preparing his/her for full-time work following graduation.

Pakistan's National Internship Program (NIP) was designed during the FY 2006-2007 by the then government, under the Establishment Division. The Program was transferred to Ministry of Youth Affairs in January 2009 but

was transferred back to Establishment Division after devolution of Youth Affairs in December, 2010. The provincial component of NIP was discontinued w.e.f. 01-07-2011 and the federal component was transferred from Establishment Division to Ministry of Education, Trainings and Standards in Higher Education vide Cabinet Division's Notification dated 28-7-2011. In pursuance of Cabinet Division's memorandum dated 30th September, 2014, the National Internship Program (NIP) under the Ministry of Federal Education and Professional Training has been transferred to Ministry of Inter Provincial Coordination (IPC). The provinces have been taken on board in management of the program for its widespread acceptability and effective implementation as the scheme is meant for whole of Pakistan (all provinces and the erstwhile FATA, GB, AJK and ICT areas).

The last batch was placed in June, 2017. Thus, placement in Phase-I of the scheme took two years to be completed. Phase-II of the scheme started in March 2017 and placement of interns was materialized on 1-7-2017. About 45,000 interns were selected from all over Pakistan instead of 50,000, due to deficiency of applicants from Sindh, out of which only 35,000 interns joined, leaving a balance of 15,000 in Phase-II.

V. PMYTS ACHIEVEMENTS DURING THE FINANCIAL YEAR 2018-2019

During the financial year 2018-2019, funds to the tune of Rs.971.444 million has been released to clear the outstanding liabilities of interns on account of stipend out of which an amount of Rs.866.201 million have been paid to approximately 29,000 interns having active bank accounts. The Prime Minister's Office vide letter dated 1st January, 2019 addressed to the Ministry of Finance, directed for release of funds for payment of outstanding liabilities on account of stipend to the interns of PM's Youth Training Scheme.

It is submitted that PC-I of the Prime Minister's Youth Training Scheme was approved by the ECNEC for a period of three years (01.11.2015 to 30.10.2018) and funded under block allocation for Prime Minister's Youth Initiative. The last batch of 33,458 interns was engaged for one year training by the Ministry of Inter Provincial Coordination vide No. 2(1)/2017-NIP dated 20th June, 2017. The interns had been paid out of quarterly releases of funds. However, payment of stipend for the months of April-June 2018 could not be made on account of non-release of funds for the fourth quarter of FY 2017-18.

In response to directive of the P.M Office, Finance Division has agreed to release the funds amounting to Rs. 971.444 million as Technical Supplementary Grant (TSG) for clearance of the above said liabilities. This was a great achievement of the present government to clear the outstanding liabilities of interns on account of stipend for the months of April-June 2018, amounting Rs.866.201 million to approximately 29,000 interns. The present

Government has emphasized the urgency of payment on account of hue & cry of the interns and increasing number of legal notices from judicial forums regarding payment of dues.

PC-I of the scheme has been extended up to 30-06-2019 for the purpose with the approval of Secretary, IPC as per the guidelines of Planning, Development & Reforms Division.

During M/o IPC presentation to the Prime Minister on 11-09-2018, *“the Chair was pleased to express the need for revamping the PSDP portfolio and appreciated the need for continuity & expansion in scope of the ongoing Youth Development Programs, National Internship (NIP). It was also advised to involve SECP in placement of interns in corporate sectors”.*

On a summary submitted by the M/o IPC, the Prime Minister has been pleased to approve the proposal of “National Youth Development Framework” contained at para-4. Thematic areas of the framework (internship as one of the intervention area) are as under:-

- i. Mainstreaming marginalized Youth
- ii. Employment and Economic Empowerment
- iii. Civic Engagement
- iv. Social Protection
- v. Health & Wellbeing
- vi. Youth – focused Institutional Reforms

As per the said framework, a National Youth Development Program has been launched to implement the framework’s vision and mission at national, provincial and grass roots levels.

It is worthy to mention that PMYTS is in line with the vision of the present government for enhancing the skills and capacity of the educated youth to cater for the ever-increasing unemployment in the country. The need was also highlighted by the Prime Minister in his maiden address to the nation. The scheme is quite vital in its design, execution and result oriented which has successfully provided not only on the job training but perspective employees in various sectors of the public & private organizations. It also provides the much-needed financial cushion to the unemployed youth while at the same time improving their skills set for the future employment thus making them useful for economic integration plan.

The expenditure incurred so far is Rs. 11,289.920/- million. Detail of funds received from Finance Division and expenditure incurred during the Financial Years mentioned below:
